

2019 SWMHE *in Ventura County* Tabletop Exercise (TTX)

Conducting an internal TTX will help to prepare your facility/organization for successful participation in the FSE on October 17th. Furthermore, this internal TTX allows personnel at your site to become familiarized with the scenario in a low-stress environment (i.e. discussion and no full activation).

It provides you with the opportunity to make any adjustments to plans, policies, procedures, etc. prior to participating in the full-scale exercise.

If your site is conducting an internal TTX, the following documents should be downloaded, modified if necessary, printed, and filed within this section:

- Situation Manual (SitMan)
- After-Action Report/Improvement Plan (AAR/IP)
- A copy of your sign-in sheet to show who participated in the TTX
