

**1797.5.** (Legislature intent)

It is the intent of the Legislature to promote the development, accessibility, and provision of emergency medical services to the people of the State of California.

Further, it is the policy of the State of California that people shall be encouraged and trained to assist others at the scene of a medical emergency. Local governments, agencies, and other organizations shall be encouraged to offer training in cardiopulmonary resuscitation and lifesaving first aid techniques so that people may be adequately trained, prepared, and encouraged to assist others immediately.

(Added by Stats. 1983, Ch. 1246, Sec. 8.)

**1797.107.** (Gives the California State "Emergency Medical Services Authority" the legal authority)

The authority shall adopt, amend, or repeal, after approval by the commission and in accordance with the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, such rules and regulations as may be reasonable and proper to carry out the purposes and intent of this division and to enable the authority to exercise the powers and perform the duties conferred upon it by this division not inconsistent with any of the provisions of any statute of this state.

(Amended by Stats. 1986, Ch. 248, Sec. 128.)

**1797.190.**

The authority may establish minimum standards for the training and use of automatic external defibrillators.

(Amended by Stats. 2002, Ch. 718, Sec. 2. Effective January 1, 2003.)

**1797.196.** (AED Regulations effective 2016-01)

(a) For purposes of this section, "AED" or "defibrillator" means an automated external defibrillator.

(b) (1) In order to ensure public safety, a person or entity that acquires an AED shall do all of the following:

(A) Comply with all regulations governing the placement of an AED.

(B) Notify an agent of the local EMS agency of the existence, location, and type of AED acquired. ([This is the Ventura County EMS Agency](#))

(C) Ensure that the AED is maintained and tested according to the operation and maintenance guidelines set forth by the manufacturer.

(D) Ensure that the AED is tested at least biannually and after each use.

(E) Ensure that an inspection is made of all AEDs on the premises at least every 90 days for potential issues related to operability of the device, including a blinking light or other obvious defect that may suggest tampering or that another problem has arisen with the functionality of the AED.

(F) Ensure that records of the maintenance and testing required pursuant to this paragraph are maintained.

(2) When an AED is placed in a building, the building owner shall do all of the following:

(A) At least once a year, notify the tenants as to the location of the AED units and provide information to tenants about who they can contact if they want to voluntarily take AED or CPR training.

(B) At least once a year, offer a demonstration to at least one person associated with the building so that the person can be walked through how to use an AED properly in an emergency. The building owner may arrange for the demonstration or partner with a nonprofit organization to do so.

(C) Next to the AED, post instructions, in no less than 14-point type, on how to use the AED.

(3) A medical director or other physician and surgeon is **not required** to be involved in the acquisition or placement of an AED.
