

## Bites and Stings

### BLS Procedures

#### Animal/insect bites:

- Flush site with sterile water
- Control bleeding
- Apply bandage

#### Snake bites/envenomation:

- Mark the edge of the inflammatory process ASAP and then every 10-15 minutes
- Remove rings and constrictions
- Immobilize the affected part in a **neutral** position
- Avoid excessive activity

#### Bee stings:

- If present, quickly remove stinger
- Apply ice pack

#### Jellyfish stings:

- Rinse thoroughly with normal saline
  - **DO NOT:**
    - Rinse with fresh water
    - Rub with wet sand
    - Apply heat

#### All other marine animal stings:

- If present, remove barb
- Immerse in hot water if available

Administer oxygen as indicated
